DEAR COLLEAGUES,

We are delighted to invite you to the XVIth International Scientific and Practical Conference "RENEWABLE ENERGY and ENERGY EFFICIENCY of the XXI CENTURY"

GOALS OF THE CONFERENCE

The organizing committee has chosen renewable energy development, energy conservation and energy efficiency as the main themes for the conference. However the below given key issues will be enlighten as well. Among them electricity production, wide use of bioenergy resources, heat supply systems and utilizing the heat of the Earth by mastering solar power, wind power and hydropower potential.

PROGRAM

The conference provides round-table discussions, plenary sessions, section meetings, oral and stand presentations.

CONFERENCE TOPICS

- Energy efficiency
- Combined hybrid RE systems
- Wind power
- Solar power
- Biomass Energy
- Hydropower
- Geothermal power
- Educational activity
- Hydrogen power
- Environmental energy (heat pumps)

**Ukrainian and English
will be official conference languages**

**The best presentations and reports will be advised
